

Cowbridge Lower School Newsletter

It has been a week of special celebrations in Lower School this week.

We started the week off by celebrating Global Recycling Day. We all learnt about the importance of recycling and everyone created their own dinosaurs out of recycling.

On Wednesday, Reception and Year 1 celebrated German Week with the big children. We were treated to a feast of German foods and recorded which ones we liked and didn't like. Danke Frau Powlson and Year 9.

Then on Thursday something incredible happened..... our dinosaur eggs hatched! Now we have 3 baby dinosaurs to look after.

To end the week, we had another whole school celebration for a very special friend of ours, George. We wore crazy socks and George's mum came in to talk to us about World Down Syndrome Day. A wonderful day celebrating a wonderful boy.

Amongst all these celebrations, Nursery had time to go hunting for more letter sounds, practise their balancing skills in the shape of dinosaurs and set themselves some new goals.

Reception discussed what dinosaurs ate and sorted them into herbivores, carnivores and omnivores. They discussed what kind of dinosaur they would like as a pet and even made their own cave paintings.

Year 1 practised their measuring skills with some very large dinosaurs and created a word bank of dinosaur adjectives in preparation for writing their own poetry.
